

Patch Placement

Please have uniforms complete by the meeting before the working weekend.

A few tricks: When putting on the Council Strip, have your son put on shirt and look straight ahead. Do not use the shoulder lines. Shirts fit different as they grow. Patch for red jacket. Put jacket on, snapped up. Have him put hand over heart like doing the pledge. That's the spot. With a sewing machine you can put nylon thread on top and cloth on bottom. Trick is to make sure the nylon thread end is on top when starting and ending. This will keep it from picking. By doing this you will not have to change colors.

Do not have any other patches, quality unit, pins, cords, etc. unless approved by PLC at their PLC meeting.

Red shoulder loops.

If you are having troubles getting or/and have questions, Call Margaret 810-664-2137
